SUMMARY

Detail-oriented Reporting & MIS professional with 2+ years of experience in business reporting, SLA/KPI tracking, reporting automation, data analysis, and operational governance support. Experienced in creating and publishing accurate daily, weekly, monthly, and ad hoc reports, monitoring operational performance, identifying data anomalies and trends, and providing actionable insights to stakeholders. Hands-on experience in automating manual-intensive reporting processes using Advanced Excel, VBA, Google Apps Script, SQL, Power BI, and Gemini AI, including reducing recurring report preparation time from 3–4 hours to approximately 5 minutes. Strong communication, stakeholder collaboration, analytical, and problem-solving skills with experience supporting cross-functional business requirements.

EDUCATION

Rajiv Gandhi Proudyogiki Vishwavidyalaya Bhopal, India
B.Tech – Mechanical Engineering, CGPA: 7.72/10 *Aug 2017 – Jul 2021*

EXPERIENCE

MIS & Reporting Automation Consultant Jan 2026 – Apr 2026
Freelance *Remote*

- Delivered freelance MIS, business reporting, and reporting automation projects focused on reducing manual-intensive reporting activities.
- Automated daily, weekly, and monthly operational reports using Google Sheets, Google Apps Script, and Gemini AI.
- Designed automated reporting workflows that reduced recurring report preparation time from approximately 3–4 hours to 5 minutes, achieving over 95% reduction in manual processing time.
- Automated data processing, validation, report generation, and formatting to improve reporting accuracy and on-time delivery.
- Integrated Gemini AI into reporting workflows to assist with data processing and automated report preparation.
- Analyzed reporting requirements and standardized recurring processes to improve efficiency and consistency.
- Collaborated virtually with a project partner to understand requirements, troubleshoot reporting issues, and deliver automation solutions.

MIS Executive – Reporting & Analytics Mar 2025 – Dec 2025
QDIGI Services *Noida, Uttar Pradesh*

- Created and monitored MIS, KPI, and operational performance reports used by 50+ stakeholders for day-to-day business tracking.
- Prepared dashboards and reports to monitor SLAs, KPIs, productivity, and process performance, supporting reporting and governance requirements.
- Automated recurring Excel and SQL reporting processes, reducing manual reporting effort by 30% while improving data accuracy to 99%.
- Analyzed operational data to identify trends, anomalies, SLA risks, delays, and process gaps and supported timely resolution.
- Developed an automated SLA breach alert system, reducing incident response time by 40%.
- Performed data validation, verification, cleaning, and reconciliation to maintain accurate and reliable business reports.
- Coordinated with cross-functional stakeholders for reporting requirements, issue resolution, data updates, and timely report delivery.

- Supported management with operational reports, dashboards, and data insights for performance monitoring and decision-making.

Documentation Executive – MIS & Reporting Aug 2023 – Nov 2024
UNIVO Education *Noida, Uttar Pradesh*

- Managed, validated, and maintained operational data for 18,000+ applications, ensuring accuracy and completeness of reporting data.
- Prepared recurring MIS reports and operational dashboards to track application funnels and key business metrics.
- Automated recurring Excel reports using VBA, saving 10+ hours per week and improving reporting accuracy to 95%.
- Performed data entry, validation, verification, reconciliation, and documentation to maintain reliable operational records.
- Analyzed application data to identify discrepancies, missing information, and process issues for timely resolution.
- Coordinated with internal stakeholders to ensure data and reporting requirements were completed within defined timelines.
- Maintained confidentiality and accuracy of applicant and business information.

PROJECTS

AI-Powered MIS & Reporting Automation | Google Sheets | Google Apps Script | Gemini AI

- Developed an automated reporting workflow for recurring daily, weekly, and monthly MIS reports.
- Automated repetitive data processing, validation, report preparation, and formatting activities.
- Integrated Gemini AI into the workflow to support data processing and report generation.
- Reduced end-to-end report preparation time from approximately 3–4 hours to 5 minutes.
- Standardized recurring reporting processes to reduce manual dependency and improve report turnaround time.

Agent Performance & KPI Dashboard | Advanced Excel | VBA | Power Query

- Developed an Excel-based reporting dashboard for 50+ agents, tracking 15+ operational KPIs.
- Automated data refresh and reporting activities using Power Query and VBA.
- Improved reporting accuracy and enabled stakeholders to monitor agent performance and operational trends efficiently.
- Improved KPI visibility, contributing to a 20% increase in call contact rates.
